

April 2019

Dr. Robert R. Friedmann  
Founding Director  
GILEE  
Georgia State University

Dear Dr. Friedmann:

I am writing to express my gratitude and appreciation for the role of GILEE (Georgia International Law Enforcement Exchange) has played in strengthening, not just the Atlanta community, but cities, states and countries around the world.

American Jewish Committee is an organization that seeks to develop relationships with ethnic, religious and international communities. GILEE's work in connecting Georgia with the Israel Police and other international law enforcement agencies corresponds with AJC's mission and helps to reinforce these relationships around the world.

Having met with GILEE delegations through the years, I know that GILEE is a model for peer-to-peer professional development as well as cutting edge technology identification that benefits all communities where they work. They also become better protectors of human rights and liberties.

I am delighted for your supporters to know that we continue to endorse your organization.

Sincerely,

Dov Wilker  
Regional Director  
AJC Atlanta
