

ISRAEL

August 2, 2020

Dr. Robert Friedmann
GILEE Founding Director
Georgia State University

Dear Robbie,

My dear friend, I am writing as a graduate of the first program in 1992 to offer my support and encouragement for all you do with the GILEE program. It has been almost three decades!

Your leadership deserves my appreciation and gratitude and I believe I speak for many when I state this.

GILEE represents for me a primary model that promotes the values of police camaraderie, tolerance, true inter-agency partnerships, and it places importance on cooperation irrespective of religion, gender, race, or national origin.

Continue in the righteousness of the path that you paved, which is based on an exceptional set of values that serve as a universal model for many to adopt.

Congratulations on your accomplishments and a big hug from Israel.

Major General (Ret.) Daniel Hen
Israel Police
